

# Infinity Retail Management System for Books

## Business challenges

- Extensive product range
- Multiple suppliers of each item
- Need to locate books by any number of criteria, such as author, title, publish date, partial ISBN, genre
- Ability to identify books not held in inventory for customer orders
- Pre-ordering of popular and anticipated books

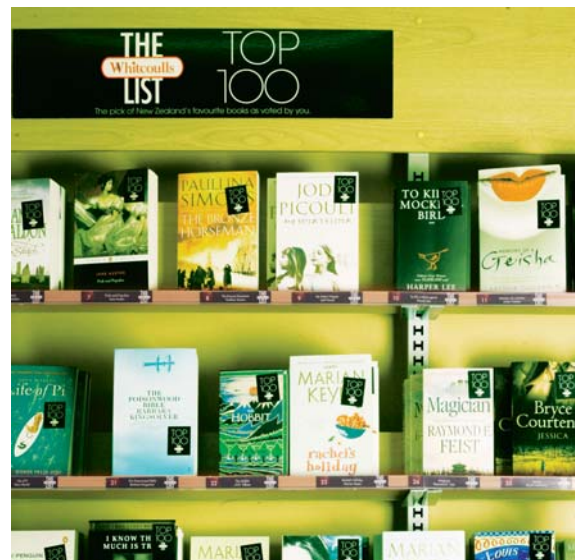

*"We have a vast range of POS functionality available to us at point of sale and the pricing is very flexible"*

Karan Clapperton, ARW Group

## Features

- Configurable fields for various attributes to be held against each item - enabling search by a vast number of criteria such as author, genre, publish date
- Web access link to international book sites from point of sale
- Multiple alternate suppliers can be applied to a product with prices and product codes
- Customer orders for books that are either not held or not available in inventory
- Electronic gift card module allows sale, balance check, redemption and recharge
- Gift exchange cards for secure exchange of items purchased without a docket
